ABOUT EF CLASSIC CARS

— *since 1996..*

EF Classic Oldtimer Cars GmbH was founded in 2019 in Duisburg, Germany, as a subsidiary of our Turkey-based parent company, Paşa Otomotiv, which has been active in the classic automotive sector **since 1996**. Our company specializes in the production of aftermarket spare parts, tailored part supply, and adding value to restoration projects for classic and youngtimer vehicles.

Our core production focuses on body panels, chassis fittings, and steering rods, which are among the most in-demand components in the restoration of vintage automobiles. These parts are often no longer available from the original manufacturers or are extremely difficult to source. Each component is crafted with exceptional attention to detail, ensuring quality, durability, and authenticity.

At EF Classic, we are more than just a parts supplier—we are a reliable partner in the restoration process, supporting workshops and collectors with practical, high-quality solutions.

Through our wholesale operations, we serve a broad international network, providing seamless and efficient service across Europe and beyond. By offering tailored solutions for restoration professionals, we help preserve the originality and heritage of classic automobiles.

Our mission is to combine a deep passion for classic cars with exceptional quality in production, helping preserve the soul of these iconic vehicles. Our vision is to become a globally recognized and trusted brand in the classic automotive industry, known for our reliability and excellence in spare parts supply.

QUALITY POLICY

Our deep passion and respect for classic automobiles guide our commitment to the highest quality standards in spare parts supply. Our goal is to ensure that every part maintains the authentic spirit of the vehicle while delivering a safe and long-lasting driving experience.

Our quality policy is built on the following principles:

- **Originality and Compatibility:** Every part listed in our catalog is carefully selected or produced to match original specifications. Each item fully complies with the technical requirements of the vehicle.
- **Trusted Suppliers:** We work exclusively with certified, reliable manufacturers who meet international quality standards. No product is offered for sale without passing EF Classic's strict approval process.
- **Customer Satisfaction:** Meeting and exceeding the needs and expectations of our customers is our top priority. We provide fast delivery, accurate part matching, and reliable after-sales support with a flawless service approach.
- **Continuous Improvement:** We continuously refine our processes based on customer feedback and industry developments, keeping our quality management system up to date at all times.
- **Passionate Expertise:** The EF Classic team is composed of professionals who understand the spirit of classic automobiles and turn that passion into quality. Each spare part is presented with the responsibility of preserving the elegance of the past for the future.

At EF Classic Oldtimer Cars GmbH, we take pride in offering only the highest quality spare parts to help you preserve the originality and performance of your classic vehicles.
